He clears:

IN THE TELEPHONE
BUSINESS this man is
called a "trouble-shooter",
which may sound like sport
but it isn't for him.

Any hour of the night he may be roused from sleep. Somewhere the line is down and it is up to him to fix it. Right away.

Usually the line is down be-eause there has been a storm. It isn't much fun to clingto the top of a pole with a zero gale taking your breath

TINDING THE BREAK
in the line is not as bad
as it used to be. It used to
mean that men had to trudge
along through the storm, perhaps for, miles, until the bad
spot was found. Today there
are delicate instruments
which can low only from
a few ods from office many miles away.

They are so accurate that If there is a break in the 180 miles of line between Toronto miles of line between Toronto and Sarnia, a man can sit in a building in Toronto and locate the spot within a pole's length or so. Or a man can sit in a building in Montreal and 'find a break anywhere between there and Quebec:

He can tell the trouble-shooter almost the very pole to go to because every pole now is numbered.

BUT THE TROUBLE-SHOOTER has to do the actual job and it means more than losing sleep or braving bad weather. It calls for very high technical skill.

Big cables are simply lead containers holding hundreds of tightly packed wires, each fine as a hair. When the

table is burnt out for a stretch, or is opened, there is' a fine looking mess. It looks like the stuffing of a hair

Each of these hundreds of fine wires has to be connect-ed again to its mate in the other half of the cable. If you can imagine yourself finger-ing those wires at two o'clock of a stormy wintry morning you will realize how good the trouble-shooter has to be at

TORMS COSTMONEY, as well as discomfort. The telephone system has over 675,000 miles of wire strung on poles stretching across 23,000 miles of country and every storm hits some part of the system. A hig storm can do a great deal of damage.

Sleet has cost the telephone company as much as a million dollars in one year.
Sometimes one storm means spending more than \$100,000 without delay.

There is no time to call the directors together. The job has to Be done and the money, must be spent.

The money is ready because the telephone company has followed a policy of making definite provision for such emergencies.

And the job is done because the telephone business has men and women, like the trouble-shooter, alive to the meaning of service and eager to keep the telephone in the front rank of Ganadian pro-

gress.

Massillon Bar Joist Floor Construction UsedThroughout in New Belleville Collegiate

The new Belleville Collegiate is one of the most outstanding examples of modern architecture and building of the year

In keeping with the high standard of quality and efficiency of all parts of the construction of the building, Massillon Bar Joist Fireproof Floors were installed throughout.

This type of floor meets modern construction demands and is fireproof, soundproof, vermin-proof, economical and easy to erect.

The open web simplifies heating, wiring and electrical installations eliminates unnecessary weight and speeds up building.

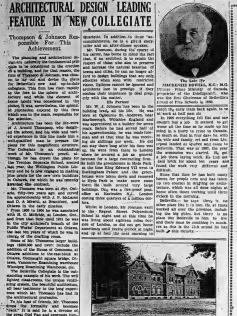

Massillon Bar Joists may be successfully used in any kind of building and are just as desirable in $\frac{1}{2}$ residence as a school, hospital, factory or office structure.

If you are interested in building, you should know all about this Massillon type of floor. Write for our booklet, "Build Fire Out."

WHY DO APPLES COST SO MUCH?

That Great Britain likes Canadian ples is demonstrated by figures is appear in openious-section (**) (1980-28) which King, And "what Galance necessarily the department of particulture is more population," and Premier King Emports, so far-this season, have an output to 181,005 harvels and 51,325 and he looked in turn reproachfully at house, a substantial increase over the companion of the compani boxies, a substantial increase over the figures for 1927, Prices are lower, however, because of the heavy crop.

An Ottawa writer, discussing the apaldering a revival of the policy of

U. S. Prohibition Chief Wants Canada to Put Ban on Runners

BEFLICE CLEADANCE

Present Treaty Is Unsatisfactory—Tourists Smuggling Not Important

Washington, December 6—Effective policing of the United States in enforcing the federal dry law would cost the Government \$200,000,000 a year Dr, James M. Doran, probabilition commissioner, told the House appropriations committee during comideration of the Tressury Department Application of the Tressury Department Applications of the Tressury Department Applicatio

The printed hearings, made public today, show that Dr. Doran was questioned with respect to the adequacy of enforcement, and that he expressed the opinion that the prohibition bureau and other Government agencies were doing "a pretty creditable job"

Dr. Doran gave it as his opinion that under the present scheme of enforcement the amount carried by the bill, which conforms to the estimates, would enable his bureau to give a good secount of itself in the enforcement

"The smurgling situation still presents a serious problem." Dr. Doran fold the 'committee. "Notwithstanding the fact that the constiguard has operated to break up nearby rum rows there is still a large movement, from European ports from the Present of land of St. Pierre, and from some ports into the United States."

Dr. Doran stated the largest quantity of liquor that 'more's into the United States from other countries enter over the northern land border, and probably seven-eighths of it comes in through the Detroit gateway, embracing the Detroit and St. Clair Rivers, Lake St. Clair and parts of Lakes Eric and Huron.

"is being combatted by the border patrol of the customs service, but it is a difficult matter to handle the large quantity of liquor which, starting from Canada, comes into the United States and is distributed in fan-like fashtos from Defroit as the focal point.

The treaty with Canada is not at all authorized, and one flata Department has before the Government has before the Government to make a revision of the treaty. able feeling in favor of sparate divorce court for this prov-nce, and the Senate, at the last ses-ion of parliament, instituted steps have legislation passed providing this. It was, however, not acceptnd by the house of commons, and the matter was left in abeyance. It was noticeable at that time that the strongest opposition to the proposal came from Quebec members, and in referring to this, Mrs. Sturdy said: Religious prejudice and public op-on are strong against divorce in stee, which makes it difficult to er h a divorce court there.

situation is that the Quebec ers, being opposed to divorce, opposed to having the Ontario antiquated method of trial by a Sen site committee. In this province, whether one likes it or not, there is not they same feeling against divorce as in Quebec, and, since all the other provinces, save Onlario and Quebec have their own courts for divorce see, surely it would be advantage-s to have a court for this purpose Ontario. It hardly seems fair that reform which is needed in Ontario, and which would have the support of the right-thinking people of the prov WHAT GOES UP

FARMERS FAVOR OLD AGE PENSION

opposition of the farmers to old age pensions. The average farmer does not need an old age pension. He altot need an old age pension. He al-rays has enough to keep him, and his ald age, if he survives, is unastly speni in the home of his childhood. There is always food on the farm, and an extra mouth is little drain on the farm resources. It is different in the city. The growth of manufacturing in terests and the limitation of wages to the bare subsistence mark, the con of living, makes provisions in many cases impossible for old, age. How Old age pensions has been found to common at the open season was personally be a more economical as well as, a season pension and the poor bount, the work bone, the hone of the provinces and the provinces are more than the provinces and the provinces are more than the provinces are the provinces are the provinces are the provinces are such cases to be provided for? He is a worker in the telephone research laboratories. He has a rack of telephone transmitters and a phonograph. He "talks them to death" by means of the phonograph to see whether the transmitters give satis-

types of transmitters and 64 different receivers to obtain the instrument you are using today. And men are at work now to find one still better.

IN THE NEXT ROOM another man is using an apparatus which rubs a piece of telephone cord back and forth until it frays.

He is seeking a better cord. He is the man who found that the brown cord in your telephone today wears better than the green cord you used to have. You may not have

noticed the change from green to brown but it has saved hundreds of thousands of dollars for telephone users.

That is the business of these gentlemen—to make a better telephone and save money in

They have wires to carry a vastly greater num-ber of messages than they used to, but they are so com-pact and so efficient that they can be pulled through the original underground ducts. original underground duets. If cables and duets had to be increased in size with the vast new traffic the costs of telephoning would climb sky-high.

THE NEW CABLES, like the brown cord and the loading coil, mean mil-lions of dollars saved. These dollars are dollars in your pocket. Your telephone is being connected with thou-sands of new telephones across the country every week yef this increased value does not cost you more because costs are successfully offset by the economies which research accomplishes.

Library Model is the most strikingly colorful and beautiful new Orthophonic Victrola Model ever created! There is no finer Christmas gift.

No newspaper illustration could ever do justice to this inspired piece of the designer's artistry. You must indeed see it to inshibe to the full its rich acheme of color; you must indeed hear it to be wholly conquered by its charm.

The woods of the cabinet, softly grained and warmly glowing, can not be pictured. Nor

can we picture the dancing colors in the leather-backed record albuma—made like rare volumes in a book-lover's paradise. And the music, brilliant, soothing, atimulating, as you wish, can not be shown here at all! Tone is a thing you must here.

ani: Tone is a thing you must Aear.

That is why you simply must ask at the store of His Master's Voice Dealer, to see and hear the New Library Model of the New Ortho-phonic Victoria. There are other models too, some combined with radio, from beautiful super-de-luse models as #2335 to as low as \$115. Ask about the convenient payment plan.

The evolution of music has marked the progress of man, the craftsmen of every age, striving ever for range and perfection of tone reproduction which would bring the most expression into music. The outgrowth of this constant striving for perfection has been the present day piano.

In the beauty of HEINTZMAN Pianos, in their quality of tone, range and reproduction, there is reflected generations of labor and experiment. What then could make a more fitting gift, a more appropriate expression for the spirit that is Christ

JUDGE THE EXCELLENCE OF THE NEW FORD BY DRIVING IT

When talk turns to motors-in theatre lobbies, in smoking cars, hotels, clubs - you hear the New Ford compared with all makes. Stories are told of the swiftness and ease with which the New Ford covers difficult highways; of distance-consuming travel hour after hour; of the breathless rush in high gear up the steepest of hills.

Only by driving the New Ford, say owners, can you appreciate the effortless joy of perfect car control. Gears shift with silent precision. The steering wheel responds to the lightest touch. Transverse springs and shock absorbers smooth rough roads. A gallon of gasoline takes you 25 to 30 miles. oil consumption is unusu-ally low. And, when the occasion arises, the fully en-closed siz-brake system grips the flying wheels with . silent power.

> Low lines, colour harmony, sparkling nickel, sturdy steel spoked wheels and full balloon tires give the New Ford grace and beauty.
>
> Owners of the most expensive cars marvel at its thrilling performance. Many, in fact,

are buying New Fords to sup-plement their larger cars.

Every item of equipment that adds to comfort, convenience and safety is included in the New Ford as it is delivered to you, from spare wheel and theft-proof ignition lock to the windshield of shatter proof glass that gives protection and clear vision.

Ford dealers everywhere await the opportunity to give you a demonstration ride. Put the New Ford through its paces. You will then appreciate that car values have changed. A truly fine automobile has come into the light car world.

If you prefer to buy out of income, you will find the time payment plan offered by all Ford dealers most attractive.

Your Ford dealer will prove the performance of the New Ford by demonstration

Next Sunday and REVERY SUNDAY The World's Greatest Comic Section More Laughs Coming! Thousands of new readers enjoyed the fun in last Sunday's big 16-page comic section. Thousands of kids laughed with glee at the antics of the funny folks in the new 30 colored comics. It was a carnival of comedy and fun . . . a rib-tickling treat that will be repeated next Sunday and every Sunday thereafter. Many newsdealers were unable to fill the demand. Thousands of extra copies were sold. Don't take a chance or missing out on this big fun-fest. Make sure that you get this big comic treat in the

TIES WHICH WILL NOT EVER BE SEVERED

The Toronto Olobe referring to this says: "It is keysity to the throne that holds the ignitered units of the British Empire together. The tie that thinds them is no mere tenuous thread of superficial adherence to an estab-lished custom. It is a deep, sincers love for the reigning head, of the realm who is man first and king afream who is man first and king at-terwards, that British people relain, of this affection the present illness of the King has brought forth a splendid demonstration. And this is the tie that cannot be broken."

BEAUTY! ECONOMY! HEALTH! A Kelvinator this Christmas will

bring all these to your family for many years to come.

Why not bring to your home this Christmas the beauty, economy and service that a Kelvinator can assure you?

1

Here is the gift that meets every requirement. Moder-ately priced-installed on surprisingly easy terms-strong, sturdy, gracefully designed, handsomely fin-ished—simple, quiet, hold-ing the cold longer, Kelvin-ators give service unequalled anywhere.

In fact—no Kelvinator has ever worn out!

Kelvinator protects i the health of your family. By its wonderful economy, it soon comes to pay for its self—sometimes out of food preservation alone, bysause it preserves lastingly the freahness and wholesomeness of your foods.

Let your family enjoy these advantages for many years to come. Let us demon-strate to you the superior dependability of Kelvicator—its beauty ! tor—its beauty !

Statement To United Bond Clients

UNITED First Mortgage BONDS

Since the date of this issue, April 15th, 1926, there have been five semi-annual interest dates, upon each of which every interest coupon was paid immediately as

On April 15th, 1928, bonds representing \$20,000 of the principal became were promptly paid upon presentation.

That this is so is due to the efficient management of the property by this Company, which, acting for the Trustees for the projection of the boundholders' interests, took over the building under first mortgage foreclosure proceedings, many months age.

We would have been glud to have continued managing the property; but, in order to protect his own interests, which the law so permits him to do, the Second Mortgagee is redeeming the First Mortgage Bind Issue on December 29th, 1928, at par and accrued interest to that date.

-Sustained Service-

The efficient management by which this building was placed on a successful, paying basis: the vindication, through that success of our original confidence in the proposition; the safeguarding, throughout, of the hondholders' interest and prompt payment of interest and principal—these are proof, again of our claim of a sustained series; to the investing public durings the entire lifetime of early bond, sade we opnowed.

BUILD RESISTANCE

It is only as resistance is broken down and the system is weakened that germs bring forth their fruitage of infuenza, grippe or other ailments. Keeping well-nourished is your purest protection.

SCOTT'S EMULSION

is good insurance against weakness. It fortifies the system and helps build up a strong wall of resistance to keep infection off. If you would know the joy of strength and power to resist that comes from a well-nourished body—take Scott's Emulsion.

THE MAJESTIC All Electric Radio is the ideal gift from every member of the family to every other member on New Year's Day.

A MAJESTIC Radio will bring the world of Art, Music, Literature, Religion, Politics or Sport into your home clearly, faithfully and at trifling cost.

Furthermore, if you have had some experience and feel that Radio should be better, more flexible, take you farther afield and present the things of interest to you more clearly -A positive revelation of power, long range, pure tone, faithful reception and keen selectivity, awaits you in The New MAJESTIC.

Reversed Charges on Station-to-Station Calls

Heretofore the reversal of charges has been available only on person-to-person ealls. As a further convenience to the public this privilege will be extended to station-to-station calls where the rate is 25 cents or more.

Longer Reduced Rate Period

Reduced rate hours for station-to-station calls will begin at 7 p.m. instead of 8.30 p.m. as formerly. 8.30 p.m. as formerly.

Between 7 and 3.30 p.m. the discount will be approximately 25 per cent of the day station-to-station rate; from 8.30 p.m. to 4.30 a.m. the discount will be about 50 per cent of the day rate, with a minimum evening rate of 56s, and a minimum night rate of 25c. Because of the unastisfactory service conditions which it brought about, the existing middlight discount will be discount will be discounted by the condition of the day of the condition of the conditions which it or thought about the existing middlight discount will be discount with the day of the conditions which it or the property of the conditions of

Messenger and Appointment Calls

The extra clarge privated among for Appointment, and Resenger calls over the regular person-to-person calls are eliminated. In the case of Messenger calls, the exact charge made against the Telephone Company for the service of a messenger will be added to the charge for the telephone call, as bereto-fore.

Report Charge The maximum report charge will be reduced from \$2.00 to \$1.00.

On messages to United States points, effect will be given to the new schedule of reduced rates announced by the American Telephone and Telegraph Company.

While reductions on the individual message are not large, the net result of
the changes proposed will be a saying to the telephone users of Ontario and
Quebec of approximately \$80,000 and greater convenience in the use of the

service. We shall be glad to furnish further information concerning the proposed rate
